Polish network of Digital Libraries - 2008

Bożena Bednarek-Michalska,
Nicolaus Copernicus University Library

National Policy and digitalization

- There is no digital strategy for Poland
- No cooperation between 3 Ministries (Science, Culture, Education)
- A short-sighted policy
- Weak lobby and influence on politics

BUT

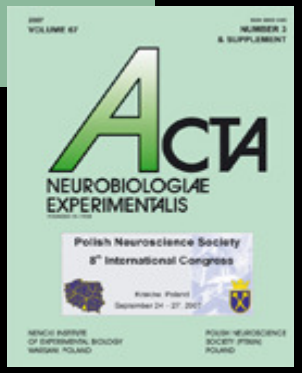
- There are 24 digital libraries (open archives)
- There is a well working network
- There is a very good cooperation between librarians
- Since 2007 there are money on digitalization from Ministry of Culture

Open Access in Poland?

- There is no scientific or governmental policy concerning OA;
- There are no typical repositories in Poland, but rather digital libraries;
- We do not use *Fedora, ePrints or DSpace,* we use ***dlibra*** (without self-archiving module);

BUT

- There are some OA Journals – 26 titles (Termedia Journals, Cornetis, Polish Academy of Science OAJ and EBIB);
- There are some scientific materials in digital libraries, which are open and free of charge.
- There are some enthusiast, who promote this idea in the society.



New initiatives 2006-2008

- Digitalization Working Group (Ministry of Culture)
  - Influence on the governmental politics
  - Creating digital strategy for Poland
  - Standards recommendations
- Polish Digital Libraries Consortium (Academic society)
  - Coordination of digital content providing
  - Founds searching
  - Common projects realization
  - International cooperation

Digital Libraries as open archives

Poznań Supercomputer and Net Centre

dLibra instalations

24 Polish open archives in 3 groups

Regional:

1. Wielkopolska Digital Library

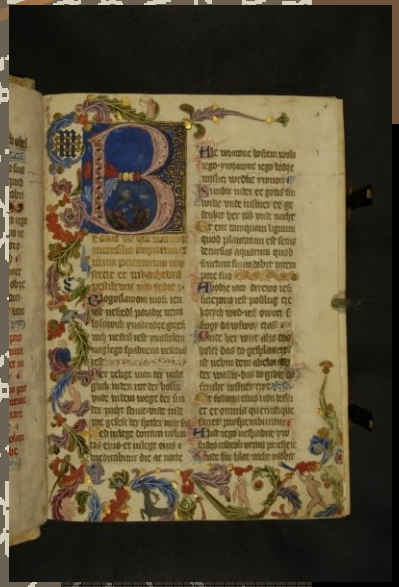
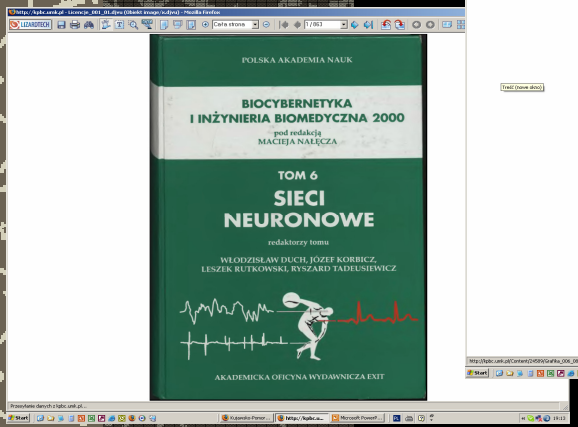
More than 140.000 different objects in the whole network

Types of documents in Polish libraries

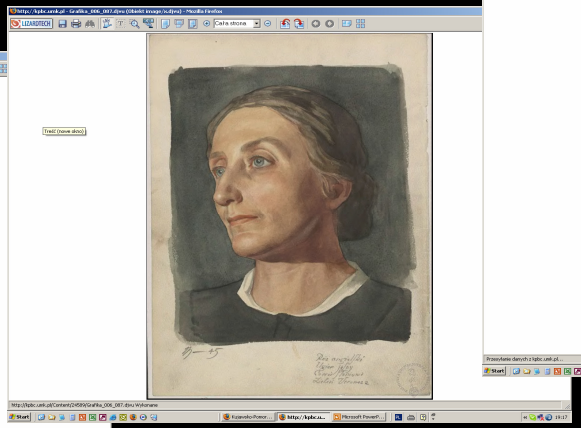


rare books

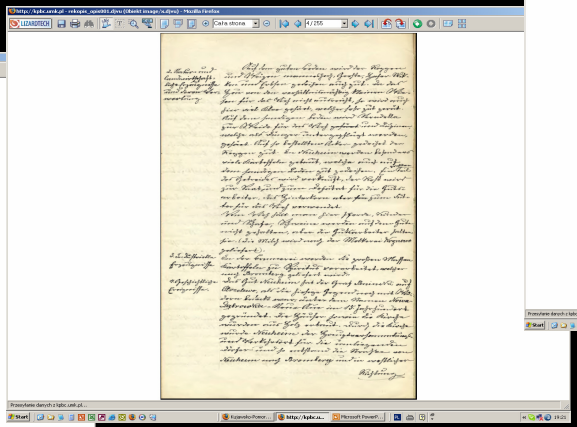
handbooks



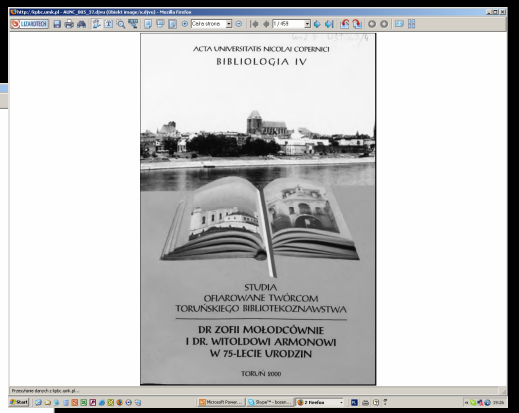
graphics



manuscripts



journals

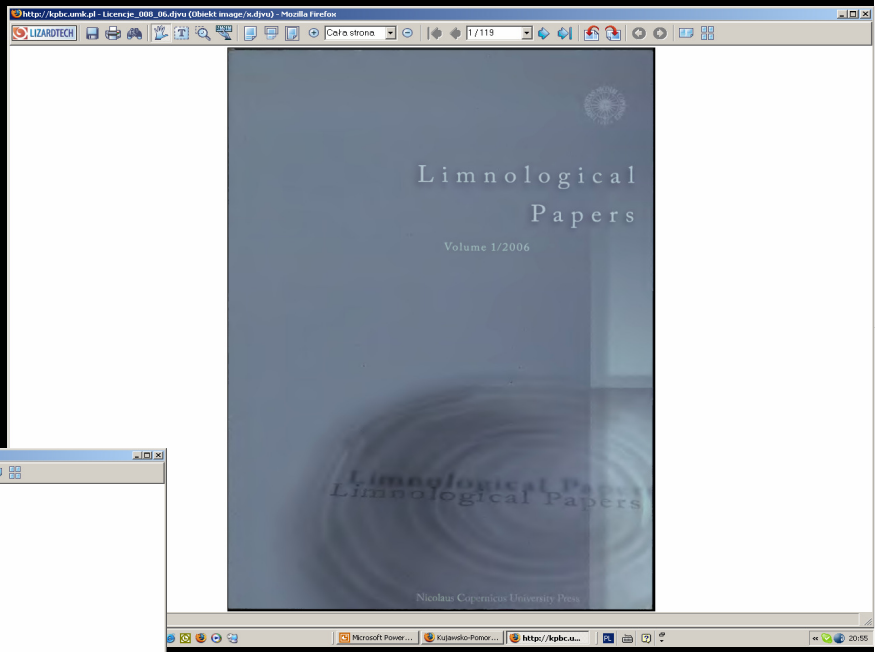


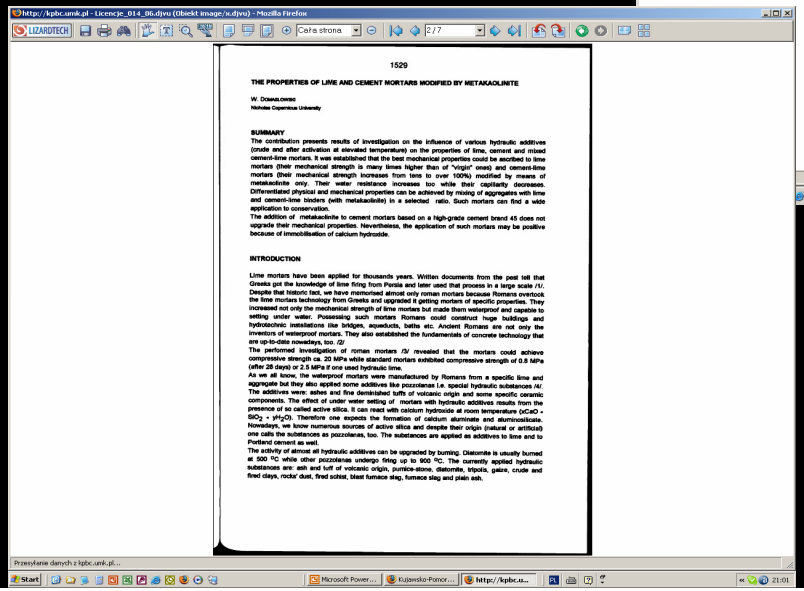
Different types of documents, different languages, formats, law status

Standards and best practice

Dublin Core v.1.1:

Title: The Properties of lime and cement mortars modified by metakaolinite
Creator: Domasłowski, Wiesław (1926-)
Subject and Keywords: metakaolinit
Place of publication: Berlin
Date: 1996
Resource Type: artykuł
Format: image/x.djvu
Source: Proceedings of the 8th International Congress on Deterioration and Conservation of Stone, vol. 3
Language: eng
Resource Identifier: oai:kpbc.umk.pl:25900
Digitalisation: Biblioteka Uniwersytecka w Toruniu





1529

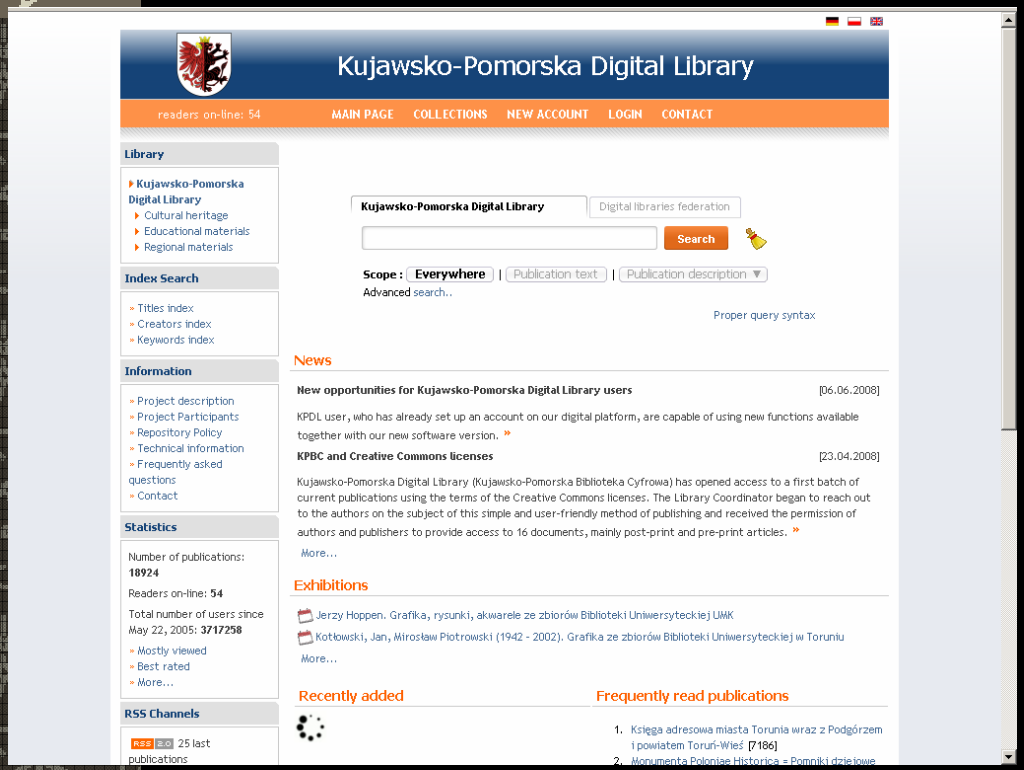
THE PROPERTIES OF LIME AND CEMENT MORTARS MODIFIED BY METAKAOLINITE

SUMMARY

INTRODUCTION

A Framework of Guidance for Building Good Digital Collections. NISO Recommended Practice, Ed. 3. NISO Baltimore 2007: http://www.niso.org/framework/.

Kujawsko-Pomorska Digital Library



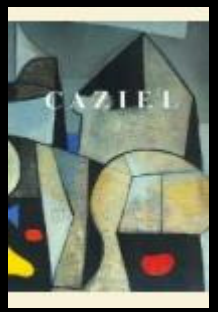
The main page http://kpbc.umk.pl

Problems?

- Preservation digital objects
- National Data Storage
- Audio/video digital copies

Problems??

Copyrights and acquiring works for publication
Creative Commons licenses
Common keyword tesaurus.
Museum items and archive materials



Problems???

- Google scans our national resources
- Improve coordination of digitalization
- Poor awareness of the Polish community
- Lack of model open access repositories

What next?

We have to solve the problems

and cancel

??????????????????????

Thank you for your attention!

Bożena Bednarek-Michalska

Many thanks for my colleague from PCSS Poznań Tomasz Parkoła
