

Frequency of frailty and its association with cognitive status and survival in older Chileans [Corrigendum]

Albala C, Lera L, Sanchez H, Angel B, Márquez C, Arroyo P, Fuentes P. *Clin Interv Aging*. 2017;12:995–1001.

On page 995, Abstract, Methods section, the following text is incorrect “At baseline, 2,098 (67% women) of 2,372 participants were identified as having the frailty phenotype” The correct text is “At baseline, 2,098 (67% women) of 2,372 participants had the necessary measurements for the identification of the frailty phenotype”.

On page 996, Methods section, the following text is incorrect “At baseline, 2,098 (67% women) of 2,389 participating subjects were identified as having the frailty phenotype”. The correct text is “At baseline, 2,098 (67% women) of 2,372 participating subjects had the necessary measurements for the identification of the frailty phenotype”.

Clinical Interventions in Aging

Publish your work in this journal

Clinical Interventions in Aging is an international, peer-reviewed journal focusing on evidence-based reports on the value or lack thereof of treatments intended to prevent or delay the onset of maladaptive correlates of aging in human beings. This journal is indexed on PubMed Central, MedLine,

CAS, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
