Scientific paper on the vibrotactile neurofeedback technology for diagnostics and rehab/therapy/training

Basta D, Ernst A (2010)
Vestibular rehabilitation by vibrotactile neurofeedback in otolith disorders.

Vestibular rehabilitation with vibrotactile neurofeedback training in patients with Parkinson’s disease.

The application of vibrotactile neurofeedback training in patients with a semicircular dysfunction.
J Vest Res 20: 261 - 263

Vibrotactile neurofeedback for vestibular rehabilitation in patients with presbyvertigo.

Basta D, Ernst A (2011)
Vibrotactile neurofeedback training with the Vertiguard RT system: A placebo-controlled double-blinded pilot study on vestibular rehabilitation (German).
HNO  59:1005-1011.

Otol Neurotol  32:1492-1499.

Basta D, Rossi-Izquierdo M, Soto-Varela A, Ernst A (2013)
Mobile posturography: posturographic analysis of daily-life mobility.
Otol Neurotol 34:288-297.

Vibrotactile neurofeedback balance training in patients with Parkinson’s disease: reducing the number of falls.
