Frequency-domain equalization for block CDMA transmission  p. 1
Different guard interval techniques for OFDM: performance comparison  p. 11
An analysis of OFDMA, precoded OFDMA and SC-FDMA for the uplink in cellular systems  p. 25

Influence of a cyclic prefix on the spectral power density of cyclo-stationary random sequences  p. 37
Downlink scheduling for multiple antenna multi-carrier systems with dirty paper coding via genetic algorithms  p. 47
EXIT-chart analysis of iterative space-time-frequency coded multi-carrier receivers  p. 57
Interleaver for high parallelizable turbo decoder  p. 67
Multi-user detection techniques for potential 3GPP long term evolution (LTE) schemes  p. 77

Analysis and performance of an efficient iterative detection strategy for IDMA systems  p. 87
Joint navigation & communication based on interleave-division multiple access  p. 97
Out-of-band radiation in multicarrier systems: a comparison  p. 107
Mitigation of dynamically changing NBI in OFDM based overlay systems  p. 117
Cancellation of digital narrowband interference for multi-carrier systems  p. 127
RAKE reception for signature-interleaved DS CDMA in Rayleigh multipath channel  p. 137
Accurate BER of MC-DS-CDMA over Rayleigh fading channels  p. 147
OFDM/OQAM for spread-spectrum transmission  p. 157
A multi-carrier downlink transmitter for LEO satellite  p. 167
A new dynamic partial precoding technique for MC-CDMA systems employing PSK modulation  p. 177
The influence of link adaptation in multi-user OFDM  p. 187
Adaptive multi-carrier spread-spectrum with dynamic time-frequency codes for UWB applications  p. 197
Radio resource allocation in MC-CDMA under QoS requirements  p. 207
Performance of cyclic delay diversity in Ricean channels  p. 217
Downlink performance of MC-CDMA systems with spatial phase codes in fading channels  p. 227

Doppler-compensation for OFDM-transmission by sectorized antenna reception  p. 237
On the receive signal dynamics in energy efficient MIMO OFDM multi-user mobile radio downlinks  p. 247
DOA estimation for MC-CDMA uplink transmissions  p. 257
The cellular alamouti technique  p. 267
Iterative intercell interference cancellation for DL MC-CDMA systems  p. 277
Positioning with generalized multi-carrier communications signals  p. 287
Joint channel tracking and phase noise compensation for OFDM in fast fading multipath channels  p. 297
Estimation of sampling time misalignments in IFDMA uplinks  p. 307
Combined time and frequency domain OFDM channel estimation  p. 317
Design and performance analysis of low-complexity pilot-aided OFDM channel estimators  p. 327
