SOME PROPERTIES OF CERTAIN CLASSES OF
MEROMORPHICALLY $p$-VALENT FUNCTIONS INVOLVING
EXTENDED MULTIPLIER TRANSFORMATIONS

R.M. EL-ASHWAH and M.K. AOUF

Abstract. The authors investigate interesting properties of certain subclasses of meromorphically multivalent functions which are defined by means of extended multiplier transformations.

MSC 2010. 34C40.
Key words. Analytic functions, meromorphic functions, multiplier transformations.
