Smith FW & Pope MH. Imaging Corner. 

Smith FW
Patient friendly Positional MRI improves diagnosis.

Kourtis D, Magnusson ML, Smith F, Hadjipavlou A, Pope MH.
Spine Height and disc height changes as the effect of hyperextension using Stadiometry and MRI.

Jorgensen MJ, Marras WS, Smith FW & Pope MH.
Sagittal plane moment arms of female lumbar region rectus abdominis in an upright neutral torso posture.

Siddiqui M, Nicol M, Karademas E, Smith FW & Wardlaw D.
The positional MRI changes in the lumbar spine following insertion of a novel interspinous process distraction device.
*Spine*. 30(23):2677-2682, December 1, 2005

Smith F W.
Upright MRI in the seated position increases insight into degenerative disc disease
*Clinical MRI* 15:3. 8 – 12. 2006

Siddiqui, Manal; Karademas, Efthimios; Nicol, Malcolm; Smith, Francis W.; Wardlaw, Douglas
Effects of X-Stop Device on Sagittal Lumbar Spine Kinematics in Spinal Stenosis.

Kuwazawa, Yasuyuki; Bashir, Waseem; Pope, Malcolm H; Takahashi, Keisuke; Smith, Francis W

Kuwazawa, Yasuyuki; Pope, Malcolm H; Bashir, Waseem; Takahashi, Keisuke; Smith, Francis W.
*Spine*. 31(17):579-583, August 1, 2006.

Karademas, E; Siddiqui, M; Smith, F; Wardlaw, D. Positional MRI Changes in Supine Versus Sitting Postures in Patients With Degenerative Lumbar Spine.

Jorgensen, MJ and Smith, FW.
Sagittal plane moment arms of the male lumbar region rectus abdominis: Upright versus Supine posture.
*PROCEEDINGS of the HUMAN FACTORS AND ERGONOMICS SOCIETY 50th ANNUAL MEETING*. 1270 – 73. 2006.

Siddiqui M, Karademas E, Nicol M, Smith FW, Wardlaw D
Influence of X-Stop on neural foramina and spinal canal area in spinal stenosis

Hirasawa Y, Bashir W, Smith FW, Magnusson M, Pope MH, Takahashi K.
Postural changes of the dural sac in the lumbar spines of asymptomatic individuals using Positional Stand-up MRI.
*Spine* 32, (6), 685-90. 2007

Siddiqui M, Smith FW, Wardlaw D
One year results of X-Stop interspinous implant for the treatment of lumbar spinal stenosis.

Alexander L, Hancock E, Smith FW, McSweeney A.
The response of the nucleus pulposus of the lumbar intervertebral discs to functionally loaded positions.
*Spine*, 32, (14),1508-12. 2007

Meakin J, Gregory J, Smith, F W; Gilbert, F J. Aspden, R M.
Characterizing the Shape of the Lumbar Spine Using an Active Shape Model: Reliability and
Precision of the Method.

Meakin JR, Smith FW, Gilbert FM, Aspden R.
The effect of axial load on the sagittal plane curvature of the upright human spine in vivo.

Lei, Dang; Rege, Amol; Koti, Manjunath; Smith, Francis W.; Wardlaw, Douglas.
Painful disc lesion: can modern biplanar magnetic resonance imaging replace discography?

Kumar A; Beastall, J; Hughes J; Karadimas, E J.; Nicol, M; Smith, F; Wardlaw, D.
Disc Changes in the Bridged and Adjacent Segments After Dynesys Dynamic Stabilization System After Two Years.
*Spine*. 2008. 33(26):2909-2914,

Beillas .P, Lafon .Y and Smith F.W
The effects of posture and subject-to-subject variations on the position and shape of abdominal
and thoracic organs.

Meakin J, Gregory J, Aspden R, Smith FW, Gilbert FJ.
The intrinsic shape of the human lumbar spine in the supine, standing and sitting postures: characterisation using an active shape model.

Freeman MD, Rosa S, Harshfield D, Smith FW Bennett R, Centano Cj, Kornel E, Nystrom A, Heffez DS,and Kohles SS.
A case-control study of cerebellar tonsillar ectopia (Chiari) and cervical spine trauma
*Brain Inj.* 24 (7-8):988-94. 2010

Fryer J, Quon J & Smith FW
Magnetic Resonance Imaging and Stadiometric Assessment of the Lumbar Discs Following
Chair-Care Decompression Exercise: A Pilot Study

Nandakumar A, Clark NA, Peehal JP, Biloikar N, Wardlaw D, Smith FW
The increase in dural sac area is maintained at 2 years after X-sop implantation for the
treatment of spinal stenosis with no significant alteration in lumbar spine range of movement.
Beillas .P, Lafon .Y and Smith F.W.
Combination of a model-deformation method and a positional MRI to quantify the effects of posture on the anatomical structures of the trunk.
Journal of Biomechanics, Volume 43, Issue 7, 1269-12 2010,

Dimitriadis AT, Papagelopoulos Pj, Smith FW, Mavrogenis AF, Karantanis AH and Katonis PG.
Intervertebral disc changes after 1 hour of running: a study in athletes.
The Journal of International Medical Research. 2011; 39(2): 569-79

Dimitriadis AT, Smith FW, Mavrogenis AF, Pope MH, Papagelopoulos Pj, Karantanis AH, Hadjipavalou AG, Katonis PG.
Effect of two sitting postures on lumbar sagittal alignment and intervertebral discs in Runners.

Hedberg K, Alexander LA, Cooper K, Hancock E, Ross J, Smith FW.
Low back pain: An assessment using positional MRI and MDT.

Smith FW, Pope MH & Wardlaw D.
Dynamic MRI using the Upright or Positional Scanner. In: Spondylolysis and Spondylolisthesis and Degenerative Spondylolisthesis. Eds. Gunzberg R and Spalski M. Lippincott Williams & Wilkins. 2006

F W. Smith.

F W Smith.
MRI Changes in the lumbar spine following insertion of X-Stop interspinous distraction device

Alyas F, Connell D and Saifuddin A.
Upright positional MRI of the lumbar spine.
Clinical Radiology. 2008:63(9);1035-1048

Beric, V.
Imaging the spine with upright MRI.
RAD Magazine. 36;(422);21-22

Auerbach JD, Lonner BS, Dean LE, Goldstein Y

Elsig J-P, Kaech D.
Dynamic imaging of the spine with an open upright MRI: present results and future perspectives of functional MRI.

Elsig J-P, Naxera J, Kaech D.
Dynamic cervical stenosis revealed by upright functional MRI.

Gilbert JW, Wheeler GR, Lingreen RA, Johnson RK, Scheiner SJ, Gibbs RD.
Upright weight-bearing cervical flexion/extension dynamic magnetic resonance imaging: Case report and review of the literature.
