The bibliography that appears below is drawn from the Psychlnfo data base, produced by the American Psychological Association, 1200 Seventeenth Street, NW, Washington, DC 20036. The titles were selected for inclusion here on the basis of their direct relevance to schizophrenia. Judgments about the quality of the article or book have been left to the reader. Due to space limitations, the Schizophrenia Bulletin has temporarily discontinued categorizing the bibliography and publishing the abstracts themselves; however, we hope to reinstitute this portion in the near future.

The articles listed below are not available from the Schizophrenia Research Branch, but are available for access through reference departments of major university libraries and public libraries.

Cegalis, J.A.; Hafez, H.; and Wong, P.S. (Center for Biocognitive Studies, Yale Psychiatric Institute, Box 12A, Yale Station, New Haven, CT 06520) What is deviant about deviant smooth pursuit eye movements in schizophrenia? Psychiatry Research, 10(1):47-58, 1983.

Guzé, S.B.; Cloninger, C.R.; Martin, R.L.; and Clayton, P.J. (Department of Psychiatry, Washington University School of Medicine, 4940 Audubon Avenue, St. Louis, MO 63110) A follow-up and family study of schizophrenia. *Archives of General Psychiatry*, 40(12):1273–1276, 1983.

Helzer, J.E.; Kendell, R.E.; and Brockington, I.F. (Department of Psychiatry, Washington University School of Medicine, 4940 Audubon Avenue, St. Louis, MO 63110) Contribution of the six-month criterion to the predictive validity of the DSM-III definition of schizophrenia. *Archives of General Psychiatry*, 40(12):1277–1280, 1983.

Libikova, H.; Pogady, J.; and Breier, S. (No address given) The viral hypothesis of schizophrenia.
Results of virological research. 

**Luchins, D.J., and Meltzer, H.Y.** (Department of Psychology, University of Chicago, Pritzker School of Medicine, 950 East 59th Street, Chicago, IL 60637) A blind, controlled study of occipital cerebral asymmetry in schizophrenia. *Psychiatry Research*, 10(2):87-95, 1983.

**Meltzer, H.Y.; Busch, D.A.; and Fang, V.S.** (Department of Psychiatry, University of Chicago, Pritzker School of Medicine, 950 East 59th Street, Chicago, IL 60637) Serum neuroleptic and prolactin levels in schizophrenic patients and clinical response. *Psychiatry Research*, 9(4):271-283, 1983.

**Meltzer, H.Y., and Busch, D.A.** (Department of Psychiatry, University of Chicago, Pritzker School of Medicine, 950 East 59th Street, Chicago, IL 60637) Serum prolactin response to chlorpromazine and psychopharmacology in schizophrenics: Implications for the dopamine hypothesis. *Psychiatry Research*, 9(4):285-299, 1983.
