## Contents

Preface                                  v
   Philippe Besnard, Sylvie Doutre and Anthony Hunter

Programme Committee                     vi

A Level-Based Approach to Computing Warranted Arguments in Possibilistic Defeasible Logic Programming
   Teresa Alsinet, Carlos Chesnèvar and Lluis Godo

Measures for Persuasion Dialogs: A Preliminary Investigation
   Leila Amgoud and Florence Dupin De Saint Cyr

Resolution-Based Argumentation Semantics
   Pietro Baroni and Massimiliano Giacomin

A Systematic Classification of Argumentation Frameworks Where Semantics Agree
   Pietro Baroni and Massimiliano Giacomin

Asking the Right Question: Forcing Commitment in Examination Dialogues
   Trevor J.M. Bench-Capon, Sylvie Doutre and Paul E. Dunne

Ontological Foundations for Scholarly Debate Mapping Technology
   Neil Benn, Simon Buckingham Shum, John Domingue and Clara Mancini

Investigating Stories in a Formal Dialogue Game
   Floris Bex and Henry Prakken

Modeling Persuasiveness: Change of Uncertainty Through Agents' Interactions
   Katarzyna Budzińska, Magdalena Kacprzak and Pawel Rembelski

Cohere: Towards Web 2.0 Argumentation
   Simon Buckingham Shum

On the Issue of Contraposition of Defeasible Rules
   Martin Caminada

Political Engagement Through Tools for Argumentation
   Dan Cartwright and Katie Atkinson

A Computational Model of Argumentation in Everyday Conversation: A Problem-Centred Approach
   Jean-Louis Dessalles

Towards Argumentation-Based Contract Negotiation
   Phan Minh Dung, Phan Minh Thang and Francesca Toni

The Computational Complexity of Ideal Semantics I: Abstract Argumentation Frameworks
   Paul E. Dunne
Focused Search for Arguments from Propositional Knowledge
Vasiliki Efstathiou and Anthony Hunter 159

Decision Rules and Arguments in Defeasible Decision Making
Edgardo Ferretti, Marcelo L. Errecalde, Alejandro J. Garcia and Guillermo R. Simari 171

Hybrid Argumentation and Its Properties
Dorian Gaertner and Francesca Toni 183

Requirements for Reflective Argument Visualization Tools: A Case for Using Validity as a Normative Standard
Michael H.G. Hoffmann 196

Argumentation Using Temporal Knowledge
Nicholas Mann and Anthony Hunter 204

Strong and Weak Forms of Abstract Argument Defense
Diego C. Martinez, Alejandro J. Garcia and Guillermo R. Simari 216

Basic Influence Diagrams and the Liberal Stable Semantics
Paul-Amaury Matt and Francesca Toni 228

Integrating Object and Meta-Level Value Based Argumentation
Sanjay Modgil and Trevor Bench-Capon 240

Applying Preferences to Dialogue Graphs
Sanjay Modgil and Henry Prakken 252

A Methodology for Action-Selection Using Value-Based Argumentation
Fahd Saud Nawwab, Trevor Bench-Capon and Paul E. Dunne 264

Semantics for Evidence-Based Argumentation
Nir Oren and Timothy J. Norman 276

Argument Schemes and Critical Questions for Decision Aiding Process
Wassila Ouerdane, Nicolas Maudet and Alexis Tsoukias 285

Arguments in OWL: A Progress Report
Iyad Rahwan and Bita Banihashemi 297

ALF': Dialogue in the Argument Interchange Format
Chris Reed, Simon Wells, Joseph Devereux and Glenn Rowe 311

Heuristics in Argumentation: A Game-Theoretical Investigation
Régis Riveret, Henry Prakken, Antonino Rotolo and Giovanni Sartor 324

Argument Theory Change: Revision Upon Warrant
Nicolaï D. Rotstein, Martin O. Moguillansky, Marcelo A. Falappa, Alejandro J. Garcia and Guillermo R. Simari 336

Diagramming the Argument Interchange Format
Glenn Rowe and Chris Reed 348

Dungine: A Java Dung Reasoner
Matthew South, Gerard Vreeswijk and John Fox 360
Agent Dialogue as Partial Uncertain Argumentation and Its Fixpoint Semantics
   Takayoshi Suzuki and Hajime Sawamura
   369

A Distributed Argumentation Framework Using Defeasible Logic Programming
   Matthias Thimm and Gabriele Kern-Isberner
   381

On the Relationship of Defeasible Argumentation and Answer Set Programming
   Matthias Thimm and Gabriele Kern-Isberner
   393

Arguments from Experience: The PADUA Protocol
   Maya Wardeh, Trevor Bench-Capon and Frans Coenen
   405

Modelling Judicial Context in Argumentation Frameworks
   Adam Wyner and Trevor Bench-Capon
   417
