CONTENTS

	Preface	xxi
	Acknowledgments	xxxii
CHAPTER 1	Manufacturing Planning and Control	1
	The MPC System Defined	2
	<i>Typical MPC Support Activities</i>	2
	An MPC System Framework	3
	<i>MPC System Activities</i>	4
	Matching the MPC System with the Needs of the Firm	7
	<i>An MPC Classification Schema</i>	8
	Evolution of the MPC System	9
	<i>The Changing Competitive World</i>	10
	<i>Reacting to the Changes</i>	11
	Concluding Principles	11
	APICS/CPIM Certification Questions	12
CHAPTER 2	Enterprise Resource Planning (ERP)	15
	What Is ERP?	16
	<i>Consistent Numbers</i>	16
	<i>Software Imperatives</i>	17
	<i>Routine Decision Making</i>	18
	<i>Choosing ERP Software</i>	18
	How ERP Connects the Functional Units	19
	<i>Finance</i>	20
	<i>Manufacturing and Logistics</i>	21
	<i>Sales and Marketing</i>	21
	<i>Human Resources</i>	21
	<i>Customized Software</i>	22
	<i>Data Integration</i>	22

How Manufacturing Planning and Control (MPC) Fits
 within ERP 23
 Simplified Example 23
 Supply Chain Planning with mySAP SCM 24
 Supply Chain Execution with mySAP SCM 25
 Supply Chain Collaboration with mySAP SCM 26
 Supply Chain Coordination with mySAP SCM 27
 Performance Metrics to Evaluate Integrated System
 Effectiveness 27
 The “Functional Silo” Approach 28
 Integrated Supply Chain Metrics 29
 Calculating the Cash-to-Cash Time 32
 What Is the Experience with ERP? 34
 *Eli Lilly and Company—Operational Standards
 for Manufacturing Excellence* 34
 Concluding Principles 37
 APICS/CPIM Certification Questions 38

CHAPTER 3 Demand Management 45
 Demand Management in MPC Systems 46
 Demand Management and the MPC Environment 48
 The Make-to-Stock (MTS) Environment 49
 The Assemble-to-Order (ATO) Environment 50
 The Make (Engineer)-to-Order (MTO) Environment 52
 Communicating with Other MPC Modules and Customers 53
 Sales and Operations Planning 53
 Master Production Scheduling 54
 Dealing with Customers on a Day-to-Day Basis 55
 Information Use in Demand Management 56
 Make-to-Knowledge 57
 Data Capture and Monitoring 58
 Customer Relationship Management 58
 Outbound Product Flow 59
 Managing Demand 59
 Organizing for Demand Management 60
 Monitoring the Demand Management Systems 61
 Balancing Supply and Demand 62

	Collaborative Planning, Forecasting, and Replenishment (CPFR)	62
	<i>Nine-Step CPFR Process Model</i>	63
	<i>Steps 1 and 2 of the CPFR Model</i>	64
	<i>Steps 3 through 9 in the CPFR Model</i>	68
	Concluding Principles	69
	APICS/CPIM Certification Questions	70
CHAPTER 4	Forecasting	75
	Providing Appropriate Forecast Information	75
	<i>Forecasting for Strategic Business Planning</i>	77
	<i>Forecasting for Sales and Operations Planning</i>	77
	<i>Forecasting for Master Production Scheduling and Control</i>	78
	Regression Analysis and Cyclic Decomposition Techniques	79
	<i>Example</i>	80
	<i>Decomposition of a Time Series</i>	83
	<i>Additive Seasonal Variation</i>	84
	<i>Multiplicative Seasonal Variation</i>	84
	<i>Seasonal Factor (or Index)</i>	85
	<i>Example</i>	85
	<i>Example</i>	86
	<i>Decomposition Using Least Squares Regression</i>	87
	<i>Error Range</i>	90
	Short-Term Forecasting Techniques	91
	<i>Moving-Average Forecasting</i>	92
	<i>Exponential Smoothing Forecasting</i>	94
	<i>Evaluating Forecasts</i>	96
	Using the Forecasts	99
	<i>Considerations for Aggregating Forecasts</i>	99
	<i>Pyramid Forecasting</i>	101
	<i>Incorporating External Information</i>	103
	Concluding Principles	104
	APICS/CPIM Certification Questions	105
	Case Study: Forecasting at Ross Products	111
CHAPTER 5	Sales and Operations Planning	115
	Sales and Operations Planning in the Firm	115
	<i>Sales and Operations Planning Fundamentals</i>	116
	<i>Sales and Operations Planning and Management</i>	117

	<i>Operations Planning and MPC Systems</i>	119
	<i>Payoffs</i>	121
	The Sales and Operations Planning Process	122
	<i>The Monthly Sales and Operations Planning Process</i>	122
	<i>Sales and Operations Planning Displays</i>	125
	<i>The Basic Trade-Offs</i>	129
	<i>Economic Evaluation of Alternative Plans</i>	133
	The New Management Obligations	136
	<i>Top Management Role</i>	136
	<i>Functional Roles</i>	137
	<i>Integrating Strategic Planning</i>	141
	<i>Controlling the Operations Plan</i>	142
	Concluding Principles	142
	References	143
	APICS/CPIM Certification Questions	143
	Case Study: Delta Manufacturing Company's Integrated Sales and Operations Planning Process	148
CHAPTER 6	Advanced Sales and Operations Planning	161
	Mathematical Programming Approaches	161
	<i>Linear Programming (LP)</i>	162
	<i>Mixed Integer Programming</i>	163
	Company Example: Lawn King Inc.	166
	<i>Company Background</i>	166
	<i>Deciding on a Planning Model</i>	167
	<i>The Linear Programming Model</i>	168
	<i>Developing the Planning Parameters</i>	169
	<i>Solving the Linear Programming Model and Understanding the Results</i>	173
	<i>Sales and Operations Planning Issues</i>	175
	<i>Using Microsoft Excel Solver</i>	176
	Concluding Principles	179
	APICS/CPIM Certification Questions	180
CHAPTER 7	Master Production Scheduling	183
	The Master Production Scheduling (MPS) Activity	183
	<i>The MPS Is a Statement of Future Output</i>	184
	<i>The Business Environment for the MPS</i>	185

<i>Linkages to Other Company Activities</i>	187
Master Production Scheduling Techniques	189
<i>The Time-Phased Record</i>	189
<i>Rolling through Time</i>	190
<i>Order Promising and Available-to-Promise (ATP)</i>	192
Planning in an Assemble-to-Order Environment	196
Managing Using a Two-Level MPS	199
Master Production Schedule Stability	202
<i>Freezing and Time Fencing</i>	203
Managing the MPS	204
<i>The Overstated MPS</i>	204
Concluding Principles	205
APICS/CPIM Certification Questions	205
Case Study: Customer Order Promising at Kirk Motors Ltd.	209
Case Study: Hill-Rom's Use of Planning Bills of Materials	211

CHAPTER 8 **Material Requirements Planning**

Material Requirements Planning in Manufacturing	
Planning and Control	215
Record Processing	217
<i>The Basic MRP Record</i>	217
<i>Linking the MRP Records</i>	227
Technical Issues	229
<i>Processing Frequency</i>	230
<i>Bucketless Systems</i>	231
<i>Lot Sizing</i>	231
<i>Safety Stock and Safety Lead Time</i>	232
<i>Low-Level Coding</i>	233
<i>Pegging</i>	234
<i>Firm Planned Orders</i>	234
<i>Service Parts</i>	235
<i>Planning Horizon</i>	235
<i>Scheduled Receipts versus Planned Order Releases</i>	235
Using the MRP System	236
<i>The MRP Planner</i>	236
<i>Exception Codes</i>	238
<i>Bottom-up Replanning</i>	239
<i>An MRP System Output</i>	241

	System Dynamics	241
	<i>Transactions during a Period</i>	243
	<i>Rescheduling</i>	244
	<i>Complex Transaction Processing</i>	244
	<i>Procedural Inadequacies</i>	246
	Concluding Principles	247
	APICS/CPIM Certification Questions	247
CHAPTER 9	Advanced MRP	253
	Determining Manufacturing Order Quantities.	253
	<i>Economic Order Quantities (EOQ)</i>	255
	<i>Periodic Order Quantities (POQ)</i>	256
	<i>Part Period Balancing (PPB)</i>	257
	<i>Wagner-Whitin Algorithm</i>	258
	<i>Simulation Experiments</i>	259
	Buffering Concepts.	260
	<i>Categories of Uncertainty</i>	260
	<i>Safety Stock and Safety Lead Time</i>	262
	<i>Safety Stock and Safety Lead Time Performance Comparisons</i>	263
	<i>Scrap Allowances</i>	265
	<i>Other Buffering Mechanisms</i>	266
	Nervousness	266
	<i>Sources of MRP System Nervousness</i>	267
	<i>Reducing MRP System Nervousness</i>	267
	Concluding Principles	269
	APICS/CPIM Certification Questions	270
CHAPTER 10	Capacity Planning and Management	275
	The Role of Capacity Planning in MPC Systems.	276
	<i>Hierarchy of Capacity Planning Decisions</i>	276
	<i>Links to Other MPC System Modules</i>	277
	Capacity Planning and Control Techniques	279
	<i>Capacity Planning Using Overall Factors (CPOF)</i>	279
	<i>Capacity Bills</i>	281
	<i>Resource Profiles</i>	283
	<i>Capacity Requirements Planning (CRP)</i>	286
	Scheduling Capacity and Materials Simultaneously	288
	<i>Finite Capacity Scheduling</i>	289

	<i>Finite Scheduling with Product Structures:</i>	
	<i>Using APS Systems</i>	291
	Management and Capacity Planning/Utilization	295
	<i>Capacity Monitoring with Input/Output Control</i>	295
	<i>Managing Bottleneck Capacity</i>	298
	<i>Capacity Planning in the MPC System</i>	299
	<i>Choosing the Measure of Capacity</i>	300
	<i>Choice of a Specific Technique</i>	302
	<i>Using the Capacity Plan</i>	303
	Concluding Principles	304
	APICS/CPIM Certification Questions	304
	Case Study: Capacity Planning at Montell USA Inc.	311
	Case Study: Capacity Planning at Applicon	313
	Case Study: Capacity Planning with APS at a Consumer Products Company	315
CHAPTER 11	Production Activity Control	317
	A Framework for Production Activity Control	317
	<i>MPC System Linkages</i>	318
	<i>The Linkages between MRP and PAC</i>	319
	<i>Just-in-Time Effect on PAC</i>	319
	<i>The Company Environment</i>	320
	Production Activity Control Techniques	321
	<i>Basic Shop-Floor Control Concepts</i>	321
	<i>Lead-Time Management</i>	324
	<i>Gantt Charts</i>	325
	<i>Priority Sequencing Rules</i>	325
	<i>Theory of Constraints (TOC) Systems</i>	327
	<i>Vendor Scheduling and Follow-up</i>	339
	<i>The Internet and Vendor Scheduling</i>	340
	Concluding Principles	341
	APICS/CPIM Certification Questions	341
	Case Study: Theory of Constraints (TOC) Scheduling at TOSOH	344
CHAPTER 12	Advanced Scheduling	349
	Basic Scheduling Research	349
	<i>The One-Machine Case</i>	350
	<i>The Two-Machine Case</i>	351

	<i>Dispatching Approaches</i>	352
	<i>Sequencing Rules</i>	352
	Advanced Procedures.....	355
	<i>Due Date–Setting Procedures</i>	355
	<i>Dynamic Due Dates</i>	358
	<i>Labor-Limited Systems</i>	360
	<i>Group Scheduling and Transfer Batches</i>	362
	Concluding Principles	364
	APICS/CPIM Certification Questions	365
CHAPTER 13	Just-in-Time	367
	JIT in Manufacturing Planning and Control.....	367
	<i>Major Elements of Just-in-Time</i>	368
	<i>JIT’s Impact on Manufacturing Planning and Control</i>	370
	<i>The Hidden Factory</i>	371
	<i>JIT Building Blocks in MPC</i>	372
	A JIT Example.....	374
	<i>Leveling the Production</i>	376
	<i>Pull System Introduction</i>	379
	<i>Product Design</i>	380
	<i>Process Design</i>	382
	<i>Bill of Materials Implications</i>	384
	JIT Applications	385
	<i>Single-Card Kanban</i>	385
	<i>Toyota</i>	386
	Nonrepetitive JIT	389
	<i>A Service-Enhanced View of Manufacturing</i>	389
	<i>Flexible Systems</i>	390
	<i>Simplified Systems and Routine Execution</i>	390
	Joint-Firm JIT.....	391
	<i>The Basics</i>	391
	<i>Tightly Coupled JIT Supply</i>	392
	<i>Less Tightly Coupled JIT Supply</i>	393
	<i>JIT Coordination through Hubs</i>	393
	<i>Lessons</i>	394
	JIT Software	394
	<i>The MRP-JIT Separation</i>	395
	<i>JIT Planning and Execution</i>	395

Managerial Implications	396
<i>Information System Implications</i>	396
<i>Manufacturing Planning and Control</i>	396
<i>Scorekeeping</i>	397
<i>Pros and Cons</i>	398
Concluding Principles	398
APICS/CPIM Certification Questions	399
CHAPTER 14 Distribution Requirements Planning	403
Distribution Requirements Planning in the Supply Chain	403
<i>DRP and the MPC System Linkages</i>	404
<i>DRP and the Marketplace</i>	406
<i>DRP and Demand Management</i>	407
<i>DRP and Master Production Scheduling</i>	409
DRP Techniques	409
<i>The Basic DRP Record</i>	410
<i>Time-Phased Order Point (TPOP)</i>	412
<i>Linking Several Warehouse Records</i>	413
<i>Managing Day-to-Day Variations from Plan</i>	416
<i>Safety Stock in DRP</i>	419
Management Issues with DRP	422
<i>Data Integrity and Completeness</i>	422
<i>Organizational Support</i>	423
<i>Problem Solving</i>	425
Concluding Principles	428
APICS/CPIM Certification Questions	428
Case Study: Abbott Laboratories	433
CHAPTER 15 Management of Supply Chain Logistics	441
A Framework for Supply Chain Logistics	441
<i>The Breadth of Supply Chain Logistics</i>	442
<i>The Total Cost Concept</i>	443
<i>Design, Operation, and Control Decisions</i>	444
Supply Chain Logistical Elements	445
<i>Transportation</i>	445
<i>Warehouses</i>	447
<i>Inventory</i>	448

- Warehouse Replenishment Systems 451
 - ROP/EOQ Systems* 451
 - Base Stock Systems* 452
 - Distribution Requirements Planning* 454
- Warehouse Location Analysis 454
 - Simulation* 455
 - Heuristic Procedures* 456
 - Programming Procedures* 456
- Vehicle Scheduling Analysis 458
 - Traveling Salesman Problem* 458
 - Solution Methodologies* 459
- Customer Service Measurement 461
 - Make-to-Stock Companies* 461
 - Make-to-Order Companies* 462
- Concluding Principles 463
- APICS/CPIM Certification Questions 464

CHAPTER 16 Order Point Inventory Control Methods 469

- Basic Concepts 470
 - Independent- versus Dependent-Demand Items* 470
 - Functions of Inventory* 471
- Management Issues 472
 - Routine Inventory Decisions* 472
 - Determining Inventory System Performance* 473
 - Implementing Changes in Managing Inventory* 474
- Inventory-Related Costs 474
 - Order Preparation Costs* 475
 - Inventory Carrying Costs* 475
 - Shortage and Customer Service Costs* 476
 - Incremental Inventory Costs* 476
 - An Example Cost Trade-Off* 477
- Economic Order Quantity Model 478
 - Determining the EOQ* 479
- Order Timing Decisions 481
 - Using Safety Stock for Uncertainty* 481
 - The Introduction of Safety Stock* 482
 - Continuous Distributions* 485

	<i>Probability of Stocking Out Criterion</i>	485
	<i>Customer Service Criterion</i>	487
	<i>Time Period Correction Factor</i>	489
	<i>Forecast Error Distribution</i>	490
	Multi-Item Management	491
	Concluding Principles	492
	APICS/CPIM Certification Questions	493
CHAPTER 17	Strategy and MPC System Design	497
	MPC Design Options.	497
	<i>Master Production Scheduling Options.</i>	498
	<i>Detailed Material Planning Options.</i>	500
	<i>Shop-Floor System Options</i>	501
	Choosing the Options	503
	<i>Market Requirements.</i>	504
	<i>The Manufacturing Task</i>	505
	<i>Manufacturing Process Design.</i>	505
	<i>MPC System Design.</i>	506
	The Choices in Practice	511
	<i>Moog Inc., Space Products Division.</i>	512
	<i>Kawasaki U.S.A.</i>	514
	<i>Applicon</i>	516
	Integrating MRP and JIT	519
	<i>The Need to Integrate.</i>	519
	<i>Physical Changes That Support Integration</i>	520
	<i>Some Techniques for Integrating MRP and JIT</i>	520
	Extending MPC Integration to Customers and Suppliers	521
	Concluding Principles	522
	APICS/CPIM Certification Questions	522
APPENDIX A	Answers to APICS/CPIM Certification Questions	525
APPENDIX B	Areas of the Standard Normal Distribution	529
	Index	531
