

W. A. Badawy and N. H. Hilal Anew Bath for the Electrodeposition of Aluminium. IV. The Electrochemical Behavior of the Rotating Aluminium Disc Electrode in Pure $\text{LiAlH}_4/\text{THF}$ -Toluene Solutions. *Ber. Bunsenges. Phys. Chem.* 93, 56 (1989).

Abstract :

W. A. Badawy and N. H. Hilal Kinetic Studies of the Ferro-Ferrihexacyanoferrate Redox Couple. Bull. Soc. Chim. Fr. 128, 144 (1991).

Abstract :

W. A. Badawy , N. H. Hilal and Sh. A. El-Shazly. Kinetic and Thermodynamic Parameters of the Ferro-Ferricyanoferrate Redox System in Glycerol-Water Mixed Solvent. Ber. Bunsenges. Phys. Chem. 95(7), 781(1991).

Abstract :

N. H. Hilal, Sh. A. El-Shazly, A. M. Bekheeta and W. A. Badawy. Electrochemical and Thermodynamic Aspects Controlling the Iron- Hexacyanoferrate Redox System in Ethylene Glycol-Water Mixed Solvent. Ber. Bunsenges. Phys. Chem. 96(5), 643 (1992).

Abstract :

S. M. Abd El-Motaal, N. H. Hilal and W. A. Badawy. Stability of Zirconium Passive Films in Nitric and Sulphuric Acid Solutions. *Electrochimica Acta*, 39 (17), 2611 (1994).

Abstract :

N. H. Hilal Stability of Anodic Oxide Films Formed on Molybdenum Electrode in Nitric Acid Solutions. Bulletin of Electrochemistry, 16(2), 79 (2000).

Abstract :

N. H. Hilal, S. M. Abd El-Motaal, and W. A. Badawy. On the Kinetic Parameters Controlling the Iodine/Iodide Redox System. Bulgarian Chemical Communications, 26 (2) 210 (1993).

Abstract :

Effect of Alcohol on the Kinetic Parameters of the Ferro-Ferri-hexacyanoferrate Redox Reaction.
Bulgarian Chemical Communications, 26 (2), 250 (1993).

Abstract :

W. A. Badawy, S. M. Abdo El-Motaal and N. H. Hilal On the Passive Film Formed on Zirconium in Nitric and Sulphuric Acid Solutions. Bull. Fac. Sci., Cairo Univ. 59, 269 (1991).
