ASOPRS 2015 Fall Symposium
46th Annual Fall Scientific Symposium
Symposium
12.11.2015, 07:00 - 13.11.2015, 17:00
NV 89109 Las Vegas, USA

Veranstaltungsnummer:
19579

Veranstalter:
American Society of Ophthalmic Plastic and Reconstructive Surgery (ASOPRS)

Kurzbeschreibung:
The ASOPRS as an ICO Member society sponsors several scientific meetings every year to promote education, research and quality of clinical practice in the fields of aesthetic, plastic and reconstructive surgery specializing in the face, orbits, eyelids and lacrimal system. The 46th ASOPRS Fall Symposium will be divided into two major topic days featuring the Aesthetic Day and the Functional Day. Exhibitions, posters and awards round off the program.

Fortbildungspunkte: 16

Hinweis:
ASOPRS is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor the Continuing Medical Education (CME) for physicians.

Fachärzte
Max. Teilnehmer: unbegrenzt
Gebühren ab: 100,00 USD
EarlyBird bis 13.10.2015: 0,00 USD

Hinweis:
EARLY BIRD
ASOPRS Member: for free
ASOPRS Candidate Member: $ 300
Reciprocal Society Member: $ 650
Non-Member: $ 825

NORMAL FEE
ASOPRS Member: $ 100
ASOPRS Candidate Member: $ 350
Reciprocal Society Member: $ 800
Non-Member: $ 975

Ärzte in Weiterbildung
Max. Teilnehmer: unbegrenzt
Gebühren ab: 100,00 USD
EarlyBird bis 13.10.2015: 0,00 USD

Hinweis:
EARLY BIRD
ASOPRS Member: for free
ASOPRS Candidate Member: $ 300
Physician-in-Training (Resident or Non-ASOPRS fellow): $ 450

NORMAL FEE
ASOPRS Member: $ 100
ASOPRS Candidate Member: $ 350
Physician-in-Training (Resident or Non-ASOPRS fellow): $ 600
medizinisches Fachpersonal
Max. Teilnehmer: unbegrenzt
Gebühren ab: 100,00 USD
EarlyBird bis 13.10.2015: 0,00 USD

Hinweise:
EARLY BIRD
ASOPRS Member: for free
ASOPRS Candidate Member: $ 300
Allied Health Professional: $ 450

NORMAL FEE
ASOPRS Member: $ 100
ASOPRS Candidate Member: $ 350
Allied Health Professional: $ 600

Bemerkungen:
Diese Veranstaltung findet jährlich statt und bietet Fortbildungsmöglichkeiten für Fachärzte, Ärzte in Weiterbildung und medizinisches Fachpersonal.

Sponsoren und Aussteller:
Allergan Inc. (US)
Alphaeon
Merz Pharmaceuticals GmbH
Stryker

Online-Anmeldeschluss: 13.10.2015

Vom Veranstalter gemeldetes Programm:

THURSDAY, NOVEMBER 12, 2015

YASOPRS Eye Openers – Rapid Fire Cases and Presentations
Moderators: M. Reza Vagefi, MD and Steven M. Couch, MD

07.00am - 07.50am
- Comparing the Search Engine Optimization (SEO) of ASOPRS Versus Related Disciplines for Common Oculoplastics Procedures
- The Brow Fat Pad Suspension Suture
- Online Ratings of ASOPRS Surgeons: What Do Your Patients Really Think of You?
- Local Anesthesia for Enucleation Surgery: Patient Perception of Pain
- Large Orbital Floor Fracture – Indication for Surgery or Not?
- The Incidence of Air Regurgitation through the Eyelid in Continuous Positive Airway Pressure Users
- Oral clarithromycin for the treatment and prevention of recurrent childhood chalazia.
- IgG4 Related Disease of the Punctum and Canaliculus
- A case of cocaine-induced pyoderma gangrenosum resulting in severe cicatricial ectropion
- Sebaceous carcinoma of the ocular adnexa: A series of 52 patients
- Questions and Discussion

Eyelid Session
Moderators: Dale R. Meyer, MD, FACS and Amy M. Folwer, MD

08.05am - 08.50am
- Surgical Approach, Reimbursement and Practice Patterns in Ptosis Repair
- The efficacy of the phenylephrine test as a predictor of post-operative contralateral lid height in unilateral ptosis repair
- Eyelid Contour Following Conjunctival Müllerectomy with or without Tarsectomy Blepharoptosis Repair
- Ptosis Sensitivity Threshold for the Lay Observer with Gender Differences
- The Effect of Gravity on Eyelid Position in Patients with Ptosis and Normal Controls.
- Comparing the effect of levator advancement and conjunctival-mullerectomy ptosis surgery on tear production and dry eye symptoms

Orbit Session
Moderators: Julian D. Perry, MD and Sara Tullis Wester, MD
08.50am - 09.30am
- Estrogen selectively increases Aquaporin-1 function in a Xenopus model for pseudotumor cerebri
- 15-year review of repeat optic nerve sheath fenestrations for idiopathic intracranial hypertension
- Creating an Animal Model for Traumatic Optic Neuropathy
- Predictability of Clinical and Radiographic Features in the Diagnosis of Extraocular Muscle Entrapment
- Deep orbital horizontal rectus muscle extirpation treatment of infantile nystagmus

09.30am - 10.15am
- Introduction of Dr. Claudio DeLorenzi
- Vascular Complications of Fillers

Aesthetic Session
*Moderators: Robert M. Schwarcz, MD and Shu-Hong Chang, MD*

10.45am - 01.00pm
- A Finer Superficial Enhanced Fluid Fat Injection for Skin Regeneration and Volume Restoration of the Periocular Aesthetic Unit.
- Prevention and Management of Periorbital Fat Transfer Contour Irregularities
- Comparison of brow ptosis correction with endoscopic brow lifting performed at two time periods approximately ten years apart.
- Chasing the Perfect Brow Lift: Combining Endoscopic and Transpalpebral Brow Lifting Utilizing a Shared Calvarial Bone Tunnel
- Platysma: To Tighten Or Not To Tighten... That is the Question!
- Nonvascular Complications of Fillers

Eyelid Session
*Moderators: Bobby S. Korn, MD, PhD, FACS and Cat N. Burkat, MD, FACS*

01.00pm - 01.40pm
- A Comparative Analysis of Three Anterior-Approach Surgical Techniques for Thyroid-Related Upper Eyelid Retraction Repair
- Lower Lid Recession in Thyroid Related Orbitopathy - a Mathematical Model
- Micro and Dermis Fat Grafting to Treat Lower Eyelid Retraction and Volume Loss
- Endoscope-Assisted Placement of Tissue Expanders for Periocular Reconstruction
- Lift and Fill II: Correcting postblepharoplasty lower lid retraction with autologous fat transfer

Eyelid and Periorbital Filler Session
*Moderator: Guy G. Massry, MD*

01.40pm - 02.30pm
- Periorbital Filler Technique with Cannula
- Periorbital Filler Technique with Needles
- Periorbital Hyaluronic Acid Gel Product Selection
- Update on Hyaluronidase Products and their Applications
- Histopathologic Evidence of Hyaluronic Acid Gel Behavior in the Periorbital Tissues
- Case 1: Overfill
- Case 2: Edema
- Case 3: Granuloma
- Case 4: Infection

ASOPRS Foundation Update and Michael J. Hawes Lecture

02.30pm - 03.40pm
- ASOPRS Foundation Update and Foundation Service Award
- ASOPRS Foundation Lecture Dedication to Richard P. Carroll, MD, FACS
- Introduction of ASOPRS Foundation Michael J. Hawes Lecturer
- ASOPRS and Oculofacial Surgery - Current Challenges and the Future

Pediatric Oculofacial Plastic Surgery Session
*Moderators: William R. Katowitz, MD and Femida Kherani, MD, FRCSC*

03.40pm - 04.15pm
- Simultaneous versus Sequential Ptosis and Strabismus Surgery in Children
- Nasolacrimal duct intubation using a microendoscope in children with congenital nasolacrimal duct obstruction after failed probing.
- Upper Eyelid Gold Weight Implantation in Pediatric Patients
• Silicone stent length and loss: Outcomes of 638 consecutive pediatric cases with monolateral intubation for pediatric nasolacrimal duct obstruction
• Preferred Methods for Ptosis Repair in the Pediatric Population

Orbit Session
Moderators: Jill A. Foster, MD, FACS and Sara Tullis Wester, MD

04.15pm - 05.00pm
Use of IntegraTM Dermal Substitute in the Reconstruction of the Exenterated Socket
Histologic Evidence of Orbital Inflammation from Retrobulbar Alcohol and Chlorpromazine Injection: A Clinicopathologic Study in Human & Rat Orbits
Proof of Concept for a Digital Display Prosthetic Eye with Functional Eye Mimicry
Efficacy and Safety of Intravenous Methylprednisolone in Active Thyroid Eye Disease
Thyroid-Related Orbital Decompression Surgery: An Analysis of Risk Factors and Outcomes
Quantification of baseline IgG4 plasma cell population in orbital inflammatory diseases

FRIDAY, NOVEMBER 13, 2015

YASOPRS Eye Openers: Rapid Fire Cases and Presentations
Moderators: Jill S. Melicher-Larson, MD and Edward J. Wladis, MD

07.00am - 08.00am
• Eyebrow position after blepharoplasty
• Comparison of Temporal Fossa Volume in Young versus Senescent Human Skulls
• Low Flow Combined Venous-Arterial Lesions of the Orbit
• Accuracy of Bone Removal in Orbital Decompressions Using Pre-Operative Planning and Intra-Operative Navigation
• IgG4-related Orbital Disease - Clinical Features of 24 Cases
• A Novel Intense Pulsed Light Treatment for Refractory Dry Eye Disease
• The Bleph and the Brain: The effect of upper eyelid surgery on headache related quality of life
• Metastatic Orbital Leiomyosarcoma Masquerading as a Sixth Nerve Palsy
• Gene Expression Profiling Test of Uveal Melanoma: Prognostic Validation
• Long-term Management Following Microvascular Free Flap for Total Eyelid Loss with Preserved Vision

Oncology Session
Moderators: Bita Esmaeli, MD and Chris R. Alabiad, MD

08.05am - 09.45am
• Sentinel Lymph Node Biopsy for Ocular Adnexal Melanoma: A Single-Center Update in 49 Patients
• The Stein Eye Institute Ten-Year Incidence of Unexpected Neoplasms After Evisceration
• Findings on Total Body PET and Bone Marrow Biopsy in 119 Patients with Ocular Adnexal Lymphoma
• Proteomic profiling of adenoid cystic carcinoma
• Orbital involvement in periocular sebaceous gland carcinoma: clinical profile and outcomes
• Comparison of Primary and Secondary Enucleation for Uveal Melanoma
• Nuances of Upper Face Injections
• Pearls for Midface Injections
• Update on Lower Face/Neck Injections
• Intra-arterial vs. Subcutaneous injection of Hyaluronidase: A Cadaver Study

Oculoplastics Smackdown: Controversies in Functional Oculofacial Plastic Surgery

10.15am - 10.45am
• New Technology Panel - Lasers and Lights

10.45am - 11.30am
• How to Optimize Treatments in Patients < 40 yo
• How to Optimize Treatments in Patients Between 40 - 60
• How to Optimize Treatments in Patients > 60
• Introduction of Dr. James Rosenbaum
• Personalized Medicine for Orbital Inflammatory Disease
Eyelid Session
Moderators: Grant Gilliland, MD and Erin M. Shriver, MD

01.00am - 01.50pm
- A Modified Myectomy Technique for Blepharospasm with Improved Cosmesis
- Quantitative Tear-Film Evaluation After Chemodenervation with Botulinum Toxin in Hemifacial Spasm
- Temporary corneal topographic and eyelid morphometric changes in patients with hemifacial spasm treated with botulinum toxin-A: Serial monitoring of a one treatment-cycle
- Utility of PROSE in the Management of Complex Oculoplastic Pathology
- MatriStem Skin Substitute Graft Material for Periorbital Reconstruction
- Cell Signaling and Gene Expression in Ocular Rosacea: Identification of Targets for Highly-Selective Therapies
- The Latino eyelid: anthropometric analysis of a spectrum of findings.

Orbit Panel: Complex Cases
Moderator: Robert C. Kersten, MD

01.50pm - 02.20pm
- Martin H. Devoto, MD
- Timothy J. Sullivan, MD, FRANZCO
- Francesco P. Bernardini, MD

Lacrimal Session
Moderators: Stuart R. Seiff, MD, FACS and David Samimi, MD

02.20pm - 03.00pm
- External Dacryocystorhinostomy revisited: do we really need to switch to endoscopic or endocanicular technique?
- To Stent or Not to Stent? Evaluating the Effectiveness of the Routine Use of Lacrimal Stent Placement after DCR in a Large Claims Database
- A 9-year observation of tube extrusion and symptomatic relief of tearing in patients treated with frosted and non-frosted Jones tubes.
- Natural Course of Ostium Granulomas after Endoscopic Dacryocystorhinostomy

Aesthetic Surgical Pearls
Moderator: Melanie Ho Erb, MD

03.30pm - 04.00pm
- Pearls for Brow Surgery
- Pearls for Upper and Lower Eyelid Surgery
- Pearls for Face Surgery

Hollywood’s Perspectives on Beauty and Aging
Moderator: Wendy W. Lee, MD

04.00pm - 04.30pm
Introduction of Speakers
Beauty in Hollywood- Director’s cut
Surgeons Going Too Far in Aesthetic Facial Surgery

ASOPRS Awards Presentations

Thursday Posters
1. Hollow or full upper eyelid sulcus, which do patients prefer?
2. Balanced Intraorbital Autologous Fat Injections: An Approach to Treating Superior Sulcus Hollowing and Enophthalmos in Orbits with Sighted Eyes and Anophthalmic Sockets
3. Arnica and Bromelain for Blepharoplasty-Associated Ecchymosis
4. Lower blepharoplasty: closing the circle - presentation of the surgical technique with long-term results.
5. Infrabrow skin excision in selected Asian patients to alleviate dermatochalasis with lateral hooding
7. Infection Rates in Elective Orbital Surgery
8. Effect of orbital decompression on corneal topography in patients with thyroid ophtalmopathy
9. CD34 + fibroblastic tumors of the orbit: Six case series
11. Postoperative Antibiotic Prophylaxis for Orbital Blowout Fracture Repair
13. The effect of zinc supplementation on the efficacy of Botulinum Toxin for the treatment of oculofacial spasm disorders?
14. Dermal Substitutes for the Management of Traumatic Periocular Tissue Loss
15. Periocular Cutaneous Anthrax Natural History and Surgical Reconstruction Results
16. Avoiding Skin Grafting for Cicatricial Ectropion: Direct Release, Elevation, and Fixation of Facial Ligaments
17. Prostaglandin Eyedrops Cause Reduced Thickness of Periorbital Dermis and Orbicularis muscle, Demonstrated with High-resolution Ultrasonography
18. A Novel Case of Basaloid Adenocarcinoma of the Lacrimal Sac and a Unique Surgical Approach to Treatment
19. Rare Case of Orbital Hodgkin Lymphoma Demonstrating Good Response to a Novel Systemic Therapy
20. Orbital Myxofibrosarcoma: A unique presentation, diagnostic dilemmas, and treatment challenges
21. Aggressive Optic Nerve Glioma with Intra-ocular Extension
22. Paramedian Forehead Flap for Ocular Adnexal Reconstruction
23. Primary mucin-producing adenocarcinoma of the eyelid: a management protocol for an uncommon but therapeutically challenging malignancy.
24. The Short Incision Midface lift (SIM) Procedure
25. The Ledge Deformity of the Lid-Cheek Junction

**Friday Posters**

1. Hyaluronic acid gel position following two techniques of upper eyelid crease modification: histological findings in cadavers
2. Periauricular Fixation Finesse Avoids Facelift Complications
3. Micrografting Hair Follicles for Eyebrow Reconstruction
4. Xanthelasma: A new complication of filler injection
5. Assessing the efficacy of Arnica montana and Rhododendron tomentosum (Ledum palustre) in the reduction of ecchymosis and edema after oculofacial surgery
6. Upper Eyelid Response to Topical 0.5% Apraclonidine
8. Simultaneous versus Staged Balanced Decompression for Thyroid-related Compressive Optic Neuropathy.
9. Orbital Implants in Reconstruction of Orbital Fractures - A Ten Year Series
10. Orbital Fine-Needle Aspiration Biopsy: A retrospective study of 225 cases
11. Characteristics of Periocular and Orbital Amyloidosis
12. Spontaneous Idiopathic Orbital Haemorrhage
13. Allergic periorbital dermatitis as the sole manifestation of gold hypersensitivity
14. Endoscopic dacrocystorhinostomy in patients with post-traumatic bone deformity
15. The effectiveness and long term outcome of primary conjunctivodacrocystorhinostomy with frosted jones tubes
16. Surgical outcomes of endoscopic dacrocystorhinostomy: analysis of 1083 consecutive cases
17. An Assessment of Presurgical Topical Antiseptic in Chalazion Excision
18. Mixed Bacterial Composition of Canaliculitis Concretions
19. Analysis of Lacrimal Gland Lesions
20. Clinical characteristics of lacrimal drainage blockage secondary to anticancer therapy
21. The mechanics of brow-suspension ptosis repair: a comparative study of Fox pentagon and Crawford triangle techniques
22. The Phenylephrine Test for Blepharoptosis Revisited
23. Outcomes and Perioperative Strategies for Endoscopic Dacryocystorhinostomy in Patients with Granulomatosis with Polyangiitis
24. Evaluation of Pathological Changes in the Connective Tissue Network of Congenital Blepharoptosis Patients
25. A Unique Ocular Presentation of Extragenital Lichen Sclerosus

**Videos**

1. Use of Head-Mounted Video Technology for Teaching Oculoplastic Surgery
2. Hydroseduction: It’s Not Just for Cataract Surgeons
3. Late Repair of Cicatricial Ectropion Using V-Y Plasty and Full Thickness Wedge Resection
4. Transorbital Coiling of Carotid-Cavernous Fistula
5. Identification and retrieval of lodged punctal plugs using lacrimal endoscopy
6. Fascia Lata Harvesting: A Video depicting Minimally Invasive Techniques
7. Concealed, Entrapped and Migrated Jones Tube: Endoscopic Revision of CJ-DCR
8. Physicians Practice Saver Electronic Medical Record System
9. No cautery, minimal blood loss enucleation with snare

**Veranstaltungsort:**
Caesars Palace

**Anschrift:**
3570 South Las Vegas Boulevard
Anmeldung: Diese Veranstaltung können Sie derzeit nicht über EYEFox buchen.
