The Nathan Smith Davis Society acknowledges and celebrates not only monetary gifts, but also volunteer service to the Feinberg School. Our program is one of just a few in the country that recognizes alumni engagement in the life of a medical school through volunteer activities. Through this prestigious society, we have the opportunity to thank you for your generous philanthropy and volunteerism.

The Nathan Smith Davis Society carries the name of one of the founders of our medical school, our first dean, and a pioneer in medical education. Dr. Nathan Smith Davis advocated for higher standards in the training of physicians as well as in the medical profession. He founded the American Medical Association, served as its first president, and was the first editor of the Journal of the American Medical Association.

Each year, we host a Nathan Smith Davis Society Reception to thank members of the society, and we publish an annual report that recognizes the name of each generous member.

**Lifetime Benefactor Society**

We thank our esteemed members of the **Lifetime Benefactor Society** for your lifetime, cumulative giving of $1 million or more to the medical school. Your high-impact giving is making a difference each day across our mission areas. Thank you!

**Liz and Eric Lefkofsky, The Lefkofsky Family Foundation**

"Liz and I are thrilled to support and inspire innovation in what may be the next ‘big idea’ in cutting-edge cancer research through our commitment to the Robert H. Lurie Comprehensive Cancer Center of Northwestern University. We feel strongly that taking risks in biomedical research can and will lead to new discoveries to benefit those living with a cancer diagnosis. Our support empowers scientists to take those risks and to seek these new discoveries for the benefit of medicine and mankind."

Henry and Emma Rogers Society

The Henry and Emma Rogers Society was founded in the summer of 1987 to express Northwestern University’s gratitude to all those who have generously made an estate or planned gift commitment to Northwestern. Today this esteemed donor recognition society has more than 1,800 members University-wide. The following alumni, faculty, staff, and friends are members of the Rogers Society as a result of their estate or deferred gift intentions to benefit the medical school. Thank you!

Arnold and Adrienne Brookstone

“We are truly grateful for the care received at Northwestern over the years. It is our hope that the long sought cures for lymphomas will be achieved during our lifetimes. We have consistently supported research on a current basis, and plan to leave behind financial support to advance future research in this vital area. Our bequest honors Dr. Leo Gordon, long-time physician and friend, and is intended to provide hope to those who will have to face this diagnosis tomorrow. We are honored that our commitment to medical research grants us membership in the Henry and Emma Rogers Society.”
