Recent Publications featuring Trust Research & Innovation-related staff
August 2015 / November 2015

Manchester Mental Health and Social Care Trust (MMHSCT) is one of the country's most research-active mental health Trusts, with over 800 of our users and carers taking part in clinical trials (818 patients successfully recruited in 2014 -2015).

We have an international reputation for our work in the area of suicide prevention and research into people living with dementia and work closely with the Dementias and Neurodegenerative Diseases Research Network (DeNDRoN) to support research in line with the Prime Minister’s Challenge on Dementia. The Trust currently hosts 4 National Institute for Health Research (NIHR) Research for Patient Benefit Grants, one Health Services Delivery and Organisation Research Grant and 2 Programme Grants. The total value of these awards is £5.4 million. The Programme Grants consist of a number of independent research projects usually linked by a single condition or aspect of healthcare.

Professoral staff with honorary contracts with the Trust include the Department of Health’s National Director for Dementia Services (Alistair Burns) and the National Director for Mental Health until 2010 (Louis Appleby), now National Director for Health and Criminal Justice.

The Trust is also proud to be a founder member of the Manchester Academic Health Science Centre (MAHSC). The following publications feature findings of the latest research undertaken by Trust researchers or by those affiliated to the Trust*.

If you have any questions, feedback or for more information please contact Outreach Librarian: Rosalind.McNally@mhsc.nhs.uk.

Taylor, Peter J., Pyle, Melissa, Schwannauer, Matthias, Hutton, Paul, and Morrison, Anthony. Confirming the structure of negative beliefs about psychosis and bipolar disorder: A confirmatory factor analysis study of the Personal Beliefs about Experience Questionnaire and Personal Beliefs about Illness Questionnaire. The

Tsoi, W.-S., Tse, S., Fukui, S., and Jones, S. Study protocol for a controlled trial of strengths model case management in mental health services in Hong Kong. BMJ Open 5(10), A44. 2015. http://dx.doi.org/10.1136/bmjopen-2015-008303

Westacott, Debbie and Ragdale, Stephanie. Transition into permanent care: the effect on the family. Nursing and Residential Care 17(9), 515-518. 2015.

*Publications included in this bulletin are identified by searching for authors in Manchester or the Trust affiliation. They are identified when they appear on Medline, Embase, PsychInfo and Web of Science bibliographic databases. References all in bold are to publications where the Manchester Mental Health & Social Care Trust are known to be included in the author affiliation on the full-text of the document or via the database record. Other publications have been identified by an author search, where a name occurs with “Manchester”. These references have just the authors in bold. This bulletin will also be available from our website.
