
GSTM1 and GSTT1 null polymorphisms and susceptibility to anti-tuberculosis drug-induced liver injury: a meta-analysis

Tang N, Deng R, Wang Y, Lin M, Li H, Qiu Y, Hong M, Zhou G

Record Status

This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

Tang N, Deng R, Wang Y, Lin M, Li H, Qiu Y, Hong M, Zhou G. GSTM1 and GSTT1 null polymorphisms and susceptibility to anti-tuberculosis drug-induced liver injury: a meta-analysis. *International Journal of Tuberculosis and Lung Disease* 2013; 17(1): 17-25

PubMedID

23232001

DOI

10.5588/ijtld.12.0447

Original Paper URL

<http://www.ingentaconnect.com/content/ijatld/ijtld/2013/00000017/00000001/art00006>

Indexing Status

Subject indexing assigned by NLM

MeSH

Antitubercular Agents /adverse effects; Drug-Induced Liver Injury /genetics; Genetic Predisposition to Disease; Glutathione Transferase /genetics; Humans; Polymorphism, Genetic

AccessionNumber

12013003480

Date bibliographic record published

27/02/2013
