

## Transfusion Therapy: Clinical Principles and Practice, 3rd Edition CD- ROM

**Description:** The third edition of Transfusion Therapy on CD-ROM has four new chapters and updated text throughout, providing guidance on how and when to prescribe blood components and derivatives. The CD-ROM is an easy way to access and store all of the information provided in the textbook.

**Contents:**

- Preface
- About the Editor
- Use of Blood Components in Clinical Practice
- 1 The Use of Blood Components Prior to Invasive Bedside Procedures: A Critical Appraisal  
Jeannie L Callum, MD, FRCP(C), and Walter H Dzik, MD
- Prophylactic Use of Blood Components Before Invasive Procedures
- Assumptions that Underlie the Prophylactic Use of Blood Components
- Specific Bedside Procedures
- References
- 2 Red Cell Transfusion Therapy in Anemia  
Jay E Menitove, MD
- Oxygen Transport Physiology
- Physiologic Compensatory Factors Affecting Oxygen Delivery
- Critical Hemoglobin Concentration
- Clinical and Experimental Observations in Anemia
- Confounding Factors
- Conclusion
- References
- 3 Transfusion Therapy in Autoimmune Hemolytic Anemia  
Anne F Eder, MD, PhD
- Warm Autoimmune Hemolytic Anemia
- Cold Autoantibodies and Cold Agglutinin Syndrome
- Autoimmune Hemolytic Anemia with Both Warm and Cold Autoantibodies
- Paroxysmal Cold Hemoglobinuria
- Drug-Induced Immune Hemolytic Anemia
- Summary
- References
- 4 Transfusion Therapy in Congenital Hemolytic Anemias  
Bruce I Sharon, MD
- Hemoglobinopathies and Thalassemias
- Disorders of Red Cell Enzymes
- Disorders of Red Cell Membranes
- Conclusion
- References
- 5 Treatment of Acquired Disorders of Hemostasis  
Thomas L Ortel, MD, PhD; Evelyn Lockhart, MD; and John E Humphries, MD
- Blood Components and Products
- Hemostatic Agents
- Acquired Coagulation Disorders
- Acquired Coagulation Inhibitors
- Conclusion
- References
- 6 Treatment of Congenital Coagulopathies  
Roshni Kulkarni, MD; Meera Chitlur, MD; and Jeanne M Lusher, MD
- Treatment of Hemophilia A and Hemophilia B
- von Willebrand Disease
- Other Hereditary Disorders of Blood Coagulation
- References
- 7 Intrauterine, Neonatal, and Pediatric Transfusion Therapy  
Edward C C Wong, MD, and Wendy Paul, MD

Fetuses as Transfusion Recipients  
Neonates as Transfusion Recipients  
Transfusion Beyond the Neonatal Period

Summary

References

8 Transfusion Therapy in Surgery

Richard K Spence, MD, MHA, FACS

Recent Trends

Red Blood Cells in Surgery

Transfusion in Trauma

Risks of Transfusion

Avoidance of Transfusion

Platelets, Fresh Frozen Plasma, and Cryoprecipitate in Surgery

Conclusion

References

9 Massive Transfusion and Transfusion Therapy in Trauma

John R Hess, MD, MPH, FACP, FAAAS; Pär I Johansson, MD, MPA; and

John B Holcomb, MD, FACS

Approach to Severely Injured Patients

Blood Components and Derivatives

13 Platelet Transfusion Therapy

Deborah Sesok-Pizzini, MD, MBA, and Jay H Herman, MD  
Platelet Products  
Platelet Refractoriness: Etiology, Prevention, and Management  
Indications for Platelet Transfusion  
Transfusion Threshold and Prophylactic Transfusion  
Assessment and Dose  
Selected Adverse Events: Bacterial Contamination, Pathogen Reduction, and Alloimmunization  
Platelet Additive Solutions  
Red Blood Cell Transfusion for Thrombocytopenic and Thrombocytopathic Bleeding  
Conclusion  
References  
14 Granulocyte (Neutrophil) Transfusion Therapy  
Ronald G Strauss, MD  
Therapeutic Granulocyte (Neutrophil) Transfusions  
Prophylactic Granulocyte (Neutrophil) Transfusions  
Methods for PMN Collection and Transfusion  
References  
15 Immune Globulin Therapy  
E Richard Stiehm, MD  
Animal Sera and Antitoxins  
Human Immunoglobulins  
Intramuscular Immune Globulin  
Intravenous Immunoglobulin  
Subcutaneous Immunoglobulin  
Advantages and Disadvantages of IGSC  
Effectiveness of IGIV or IGSC in Primary Antibody Deficiencies  
IGIV or IGSC in Combined Immunodeficiencies  
IGIV in Secondary Antibody Deficiencies  
Immunoglobulin Therapy in Infection  
IGIV in Inflammatory and Autoimmune Disorders  
Monoclonal Antibodies  
Special Immunoglobulins for Noninfectious Use  
Immunoglobulin Use by Unusual Routes  
Future Directions  
References  
16 Rh Immune Globulin  
Paul D Mintz, MD  
Overview of RhIG Use  
Testing and Treatment of Women Who Are Pregnant or Have Been Pregnant Recently  
Antenatal Fetal D Genotyping  
Testing the Father  
Dose of RhIG  
Failure of Prophylaxis  
Risks of RhIG Administration  
Special Circumstances  
Prevention of D Alloimmunization after Transfusion of D-Positive Red Cells  
Conclusion  
References  
17 Clinical Uses of Fibrin Sealant  
William D Spotnitz, MD, MBA  
Abdominal Surgery  
Cardiovascular Surgery  
Dental Surgery  
Head and Neck Surgery  
Neurosurgery  
Obstetric and Gynecologic Surgery  
Oncology Surgery (Breast and Inguinal Dissection Procedures)  
Ophthalmologic Surgery  
Orthopedic Surgery

Plastic Surgery  
Thoracic Surgery  
Urologic Surgery  
Vascular Surgery  
Conclusion  
References  
18 Transfusion Therapy in Hematopoietic Progenitor and Stem Cell Transplantation  
Richard C Friedberg, MD, PhD, FCAP, and Chester Andrzejewski, Jr, PhD,  
MD, FCAP  
Provision of Blood Components  
Modifications to Blood Components  
Hematopoietic Progenitor Cell Products  
Conclusion  
References  
19 Lymphocytes as Transfusion Immunotherapy  
Hanh M Khuu, MD, and Harvey G Klein, MD  
Introduction  
Lymphocytes, Minimally Manipulated  
Lymphocytes, More than Minimally Manipulated  
Regulatory Considerations  
References  
20 The Role of Hematopoietic Growth Factors in Transfusion Medicine  
Carolyn F Whitsett, MD  
Erythropoiesis Stimulating Agents  
Myeloid Growth Factors  
Clinical Indications  
Thrombopoiesis Stimulating Agents  
Conclusion  
References  
Appendix 20-1 NCCN Guidelines on Myeloid Growth Factors  
21 Alloimmunization to Red Cell Antigens and Management of  
Alloimmunized Patients  
James C Zimring, MD, PhD, and Steven L Spitalnik, MD  
Induction of Alloantibodies by Red Cell Transfusion  
Management of Alloimmunized Patients  
Summary  
References  
Preventing and Managing Adverse Events  
22 Transfusion-Associated Graft-vs-Host Disease  
Jed B Gorlin, MD, and Paul D Mintz, MD  
History  
Clinical Manifestations  
Irradiation  
General Indications for Irradiation  
Which Components May Cause TA-GVHD?  
Indications for Irradiating Cellular Blood Components  
Alternatives to Irradiation  
Conclusion  
References  
23 Leukocyte-Reduced and Cytomegalovirus-Reduced-Risk  
Blood Components  
Pamela Clark, MD, JD, and John P Miller, MD, PhD  
Leukocyte Reduction: Definition, Mechanisms, Timing, and Potential Adverse  
Effects  
Febrile Nonhemolytic Transfusion Reactions  
Prevention of Alloimmunization and Platelet Refractoriness  
Use of Cytomegalovirus-Reduced-Risk Blood Components  
Transfusion-Related Immune Modulation  
Practical Considerations  
Summary  
References  
24 Alternatives to Allogeneic Transfusion in Patients with Surgical Anemia  
Lawrence T Goodnough, MD

Perioperative Autologous Blood Donation and Transfusion  
Pharmacologic Interventions to Reduce Allogeneic Blood Transfusion  
Conclusion  
References  
25 Pathogen Reduction Techniques  
Joseph P R Pelletier, MD, and Christopher A Tormey, MD  
Overview  
Solvent/Detergent Treatment  
Methylene Blue  
Amotosalen  
FRALE  
PEN110  
Riboflavin  
Clinical Trials of Pathogen-Reduced Blood Components  
Transfusion-Associated Graft-vs-Host Disease  
Conclusion  
References  
26 Management of Transfusion Reactions  
Robertson D Davenport, MD  
Febrile Nonhemolytic Reactions  
Allergic Reactions  
Severe Allergic (Anaphylactic) Reactions  
Acute Hemolytic Reactions  
Delayed Hemolytic Reactions  
Bacterial Contamination of Blood Components  
Transfusion-Related Acute Lung Injury  
Posttransfusion Purpura  
Graft-vs-Host Disease  
Hypotensive Reactions  
Nonimmune Hemolysis  
Transfusion-Associated Circulatory Overload  
Transfusion-Related Hypothermia  
Transfusion-Related Hyperkalemia  
Transfusion-Related Acid-Base Abnormalities  
Acute Pain Transfusion Reaction  
References  
Quality in Transfusion Practice  
27 Administration of Blood Components  
Joanne L Becker, MD  
Preadministration Issues  
Blood Administration  
Current Practices  
Conclusion  
References  
28 Hemovigilance: An Approach to Risk Management in Transfusion Medicine  
Cees Th Smit Sibinga, MD, PhD, FRCP Edin, FRCPATH, and  
Michael F Murphy, MD, FRCP, FRCPATH  
Overview of Hemovigilance  
Public Health Objectives  
Transfusion Chain  
Transfusion Reactions  
Transfusion Quality System  
Classification of Adverse Events to Transfusion  
Organizational Structure and Levels of Reporting  
Use of Data by the French and UK Hemovigilance Systems to Reduce  
Adverse Events Associated with Transfusion  
Contribution of Hemovigilance to Public Health  
Implementation  
Most Commonly Encountered Difficulties  
Conclusion  
References  
29 Quality Assessment and Improvement of Blood Transfusion Practices  
Paul D Mintz, MD

History  
Errors in Transfusion Practice  
Accreditation and Regulatory Requirements  
The Transfusion Committee  
Conclusion  
References  
30 Overview of Medical-Legal Issues in Transfusion Medicine in the United States

## Fax Order Form

To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit

<http://www.researchandmarkets.com/contact/>

## Order Information

Please verify that the product information is correct.

Product Name: Transfusion Therapy: Clinical Principles and Practice, 3rd Edition CD- ROM  
Web Address: <http://www.researchandmarkets.com/reports/2366916/>  
Office Code: SC

## Product Format

Please select the product format and quantity you require:

Quantity  
CD-ROM:  USD 178 + USD 31 Shipping/Handling

\* Shipping/Handling is only charged once per order.

\* The price quoted above is only valid for 30 days. Please submit your order within that time frame to avail of this price as all prices are subject to change.

## Contact Information

Please enter all the information below in **BLOCK CAPITALS**

Title: Mr  Mrs  Dr  Miss  Ms  Prof

First Name: \_\_\_\_\_ Last Name: \_\_\_\_\_

Email Address: \* \_\_\_\_\_

Job Title: \_\_\_\_\_

Organisation: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_

Postal / Zip Code: \_\_\_\_\_

Country: \_\_\_\_\_

Phone Number: \_\_\_\_\_

Fax Number: \_\_\_\_\_

\* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)

**Payment Information**

Please indicate the payment method you would like to use by selecting the appropriate box.

Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

Pay by check: Please post the check, accompanied by this form, to:  
Research and Markets,  
Guinness Center,  
Taylors Lane,  
Dublin 8,  
Ireland.

Pay by Wire Transfer: Bank details will be provided on the invoice which you will receive after you place your order with us.

If you have a Marketing Code please enter it below:

Marketing Code: \_\_\_\_\_

Please note that by ordering from Research and Markets you are agreeing to our Terms and Conditions at <http://www.researchandmarkets.com/info/terms.asp>
